

KAMPALA INTERNATIONAL UNIVERSITY

SCHOOL OF MATHEMATICS AND COMPUTING (SOMAC)

DEPARTMENT OF INFORMATION TECHNOLOGY

UNIVERSITY EXAMINATIONS, APRIL 2026

PROGRAMME : Bachelor of Information Technology/Bachelor of Computer Science
YEAR OF STUDY : 3 / 2
SEMESTER : 2
COURSE TITLE : Social and Professional Issues in Computing
COURSE CODE : IFS3201 / ITE2204
DATE : 25-04-2026
TIME : 2:00 pm – 5:00 pm
DURATION : 3 Hours

INSTRUCTIONS TO THE CANDIDATES:

- Attempt only four questions
- Each question carries 15 marks
- Do not write anything on the Question paper

Question 1

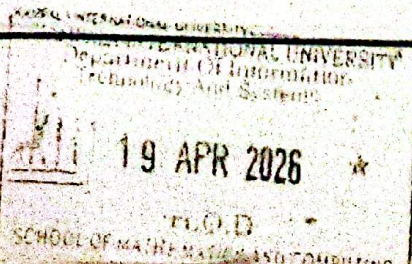

- a. Define various concepts related to IT privacy and discuss the challenges associated with maintaining privacy in the digital age. (8 marks)
- b. Explore the reasons individuals opt for anonymity, particularly on social media platforms, and elaborate on methods and techniques used to achieve anonymity online. (7 marks)

Question 2

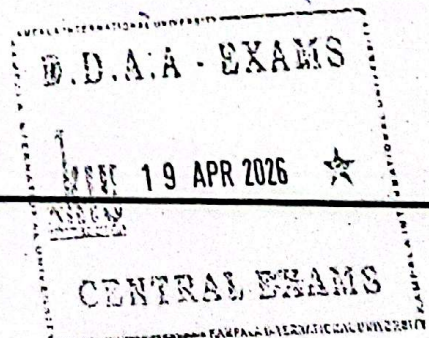

- a. Detail the five-step process used to analyze ethical issues when faced with challenging situations. (5 marks)
- b. Explore various ethical theories that assist decision-makers in distinguishing between right and wrong actions. (5 marks)
- c. Identify and elaborate on five emerging technologies in the field of computing. (5 marks)

Question 3

Delve into 7 social liberties within the realm of computing, highlighting their significance, strategies for implementation, and challenges in achieving and preserving these liberties. (15 marks)

Exploring the Heights

Question 4

- a. Discuss the following concepts within the realm of intellectual property rights: (5 marks)
- i. Copyright
 - ii. Patent
 - iii. Trademark
 - iv. Trade secrets
 - v. Identity theft
- b. Analyze social challenges inherent in computing and propose strategies to overcome them. (10 marks)

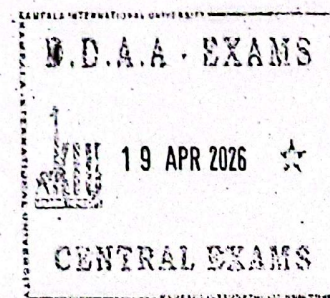

Question 5

- a. Explain the main objectives of the Association for Computing Machinery (ACM), a key professional association for computer scientists and IT professionals. (7 marks)
- b. Illustrate the four ACM codes of conduct with specific requirements and provide examples. (8 marks)

Question 6

- a. Describe key laws governing the computing profession. (5 marks)
- b. Explain the roles of 3 national and 2 international bodies that oversee Codes of Conduct within the computing profession. (5 marks)
- c. Discuss the diverse challenges associated with enforcing Codes of Conduct within the computing profession. (5 marks)
